

**** **ALERT** ** by Gedolei Hador**

Modified by Rabbi Weinstein from essay "Souls on Fire"

The awesome power of music can comprise our faith. There is barely a single function of the body which is not affected by music, its lyrics and performers composition. It's a fact that audio perceive sound nerves are more widely distributed and have more extensive connections than any other nerve in the body. **Matsiyahu** (taken name) a **supposed renewed Jew drape in beard and yarmulke**, together with his group by delivering lyrics of growth and redemption are attracting and **ensnaring** religious Jews and non-Jewish audiences alike. The objectionable CD's are composition that comes out of the **African- American Christian churches**, unfortunately obtained at **religious book stores**

By one examining the pamphlet of the fresh **Matsiyahu CD** "Fire of Heaven", where **Matsiyahu** and partner Josh share, you'll find disguised **stain of the gospel**. Covered in a quantity of names Josh gives a "**Special thanks to everyone I forgot. And all love to those I never met.... Jesus, ...**"

On the pamphlet they print a false and **deceptive reading of Psalm # 27** which reads as an **extract of gospel testaments**. For illustration the last sentence, "**Look to the Lord** for hope, be strong and of good courage: **Yea, wait for the Lord**" (?) **The ArtScroll Tanach** describes the sentence entirely different "**Place confidence** in Hashem, strengthen yourself and **he** will give you courage: **And place confidence in Hashem**". In a pretext to place the **declaration of the cross** on the pamphlet quote "JDBU Records is a not for profit record event production company for **innovative cross-** cultural dialogue".

When a yeshiva youngster is asked to shut down **Matsiyahu CD** and fires back; when I hear his music I fear no danger, I am invulnerable, I see no foe, and I am related to the earliest time and to the latest. One sees that the **flames of passion deprive him of his faith, contaminated he could not let go as the toxin trickled into his soul: the danger is obvious**

**Missionaries know that even if the mind does not absorb the information
Everything seeps into the soul**

Listen to this story of **seven year old Yehoshua** who contacted the deadly disease of typhus. The cure lay in an **English Missionary Hospital** with doctors that had the ability to treat the disease. Yehoshuas' father supposed that nobody would try to convert a dying child and the medical staff at the hospital **promised that heaven forbids that they would try to convert the child.**

The hospital room was filled with pictures of saints, religious themes, crosses on the walls, and loudspeakers played gospel harmony. A small piece of metal was placed on his lips each time he was administered medicines by nurses wearing large crosses on big chains. Yehoshua was disoriented as the nurses hovered over his bed entreating him **to repeat strange words**, occasionally sprinkling water on his head. Two weeks later Yehoshua left the hospital in **a healthy body and a poisoned soul, they lied**

Yehoshua had a constant struggle within himself and an urge to run back to the monks at the hospital, to convert. Yehoshuas committed suicide at **age seventy two**; the suicide letter was found by **Rabbi Sonnenfeld Z'tl** it stated; "When I was young I was able to cope with my evil impulse, the prayer, the Torah study and mitzvah observance diluted **the poison placed into my soul**... I knew the older I got the less willpower. Yehoshua sacrificed himself as a pure Jew **rather than the chance** of dying as a meshumad (convert)."

In **Duties of the Heat** (fifth treatise) Rabbi Bachya ben Joseph ibn Paquda concluded: That anyone **who recites a public religious prayer, as well as to compose liturgical hymns without thoughts of G-d, their service in not acceptable to the Almighty.**

Those devoted to steal our faith, are aware of scientific and medical studies that have proven conclusively, that the human mind can be controlled and altered with music. We **denounce** those that wrap their objectives in an implied righteous **with the target of setting our souls on fire.**
